

# STEAM WAY® 4100 LX

## STEAM WAY® 4100 LX

### UNCOMPROMISING CLEANING PERFORMANCE

Whether you are looking to maximize heat, pressure, or vacuum recovery, the Steam Way® 4100 LX delivers uncompromising cleaning performance without breaking the bank. With a new twist on an established favorite, the Steam Way® 4100 LX provides you with reliable fuel oil fired heating performance in a compact, proven package. At the same time increased engine power allows for superior vacuum recovery performance.

### A TRUE HARD SURFACE CLEANER, READY FOR RESTORATION

If you are even considering adding hard floor cleaning, or tile and grout cleaning to your service menu, the Steam Way® 4100 LX will deliver consistently hotter cleaning temperatures at water flow rates above 3 gallons per minute. The Roots 45 RAI Vacuum Recovery System allows for excellent performance in water damage restoration, deflooding and dual wand carpet cleaning.

### UPGRADED FOR SAFETY AND EASE OF OPERATION AND MAINTENANCE

Special design enhancements and advanced engineering applications have provided the Steam Way® 4100 LX Truck Mount with an easy to access, perimeter serviceable layout. A new protection shield denies unauthorized access to most moving parts, yet is easy to remove for service and adjustment.

### 25% MORE CLEANING PER WAND STROKE

Other truck mounts flow 25% less water while cleaning than the 4100 LX. By flowing more cleaning solutions (water) with each cleaning wand stroke, you will reduce the need to make a second or third cleaning wand stroke 50% of the time.

### TRIED AND TRUE FOR THE LOYAL BLUE

Every detail has been considered to make a dependable favorite available in a higher performance package. Thousands of Steam Way® truck mount owners can testify to the uncompromising cleaning performance of this unit. The units engineering upgrades were directly designed from the input of cleaning and restoration professionals just like you. Don't settle for less, when such a power packed performance package is available at such an attractive price.

"We are just now reviewing the past year and it was very successful! As always, a large part of our success is because we run the best equipment supported by the best people in the industry - Steam Way International."

Joe Farrell  
Sunrise Carpet Cleaning  
Snowmass Village, Colorado

### Quick Reference Guide

Solution Heating	220,000 btu fuel oil fired on demand system maintains 250° F at 2.0 gpm
Solution Pressure	CAT Industrial Solution Pump produces up to 1200 PSI
Vacuum	Roots 45 RAI Vacuum Blower System produces up to 350 cfm (with 330 cfm at 12:Hg)
Engine	Kohler 20 Hp Command Air Cooled Engine

# STEAM WAY® 4100 LX STANDARD FEATURES

## Machine Specifications

- **ENGINE:** Kohler 20 HP Command VX energy efficient industrial air cooled engine.
- **VACUUM:** Roots 45 RAI. Vacuum relief valve relieves pressure at 14" hg. Air Flow rates up to 325 cfm.
- **HEATER:** 220 XL On-Demand Fuel Oil Heating System. The 220,000 B.T.U. Fuel Oil Heating System can attain and maintain solution temperatures up to 240°F (116°C) at 2.1 gpm (7.95 lpm).
- **PUMP:** Industrial Heavy Duty Cat 3 CP Solution Pressure System. The most powerful, heavy duty pressure system available for truck mounted equipment. Adjustable and usable pressures up to 1250 P.S.I. (86 bar) of solution pressure up to 3 gpm (11.35 lpm).
- **70 Usable (265 Liters) Gallon Marine Aluminum Waste Recovery System** or optional 50 or 100 gallon tank.
- **Instrumentation**
  - Electronic Circuit Breakers Instead Of Fuses
  - Tachometer/Hour Meter
  - Water Temperature Is Thermostatically Controlled
  - Water Temperature Monitoring Gauge
  - Glycerin Filled Shock Absorbing Solution Pressure Gauge
  - Chemical Flow Metering System
  - Easy Access Oil Filter And Oil Drain
  - Inlet Water System Prevents Backflow
  - Vacuum Blower Oiler
- **Dimensions:** 34"W x 40"H x 35"L (86.4cm W x 101.6cm H x 88.9cm L).
- **Weight:** 540 lbs (201.4kg).

## Standard Starter Kit

- 4100 LX Cleaning Plant
- 12" (30.5 cm) Stainless Steel "Protection Shield" Scrub Wand
- 100' (30.5 meters) High Pressure And Temperature Solution Hose
- 100' (30.5 meters) Industry Strength Vacuum Hose
- 50' (15.2 meters) Water Hose With Intake Valve Assembly
- Two Fuel Tanks or One Fuel Tank and One Fuel In-Line Hook-Up Kit
- Installation Kit
- Machine Operations And Maintenance Manual
- Platinum Plus™ Protection Plan Warranty
- 70 Gallon (265 liters) Usable Waste Recovery Tank, Attached

## Optional Enhancement Features

- High Performance Waste Water Pumping System
- Hose Reels
- AquaTank® Fresh Water Tank/Chemical Rack
- Additional Solution Pressure And Vacuum Hose
- Dual Wand Conversion Kit
- Truck Pan
- 50 or 100 Gallon Waste Tank

## Performance Enhancing Features

### ✓ Reduce Wear and Tear

Heavy duty electric safety clutch allows independent operation of vacuum and pressure system for water damage restoration and pressure washing, which reduces wear and maintenance.

### ✓ Blower Protection System

Screens foreign objects from damaging blower system. The front panel access valve allows for easy daily maintenance. Automatic shut-off prevents waste water blowout when waste tank is full, protecting the blower.

### ✓ Complete Dual Wand Capability

Vacuum suction, solution pressure, and solution heating capabilities combine for dual wand performance.

### ✓ Safety Protection Shield

Mounted safety screen prevents access to moving parts. Quick removal allows for easy maintenance access.

### ✓ Be Prepared For Winter

No matter what the weather is doing outside you will still deliver the same high cleaning solution temperatures at the same water flow rate to the cleaning surface as you do in the middle of the summer.

### ✓ Improved Heater Ignition System
